

Bonham Style Drum Fill

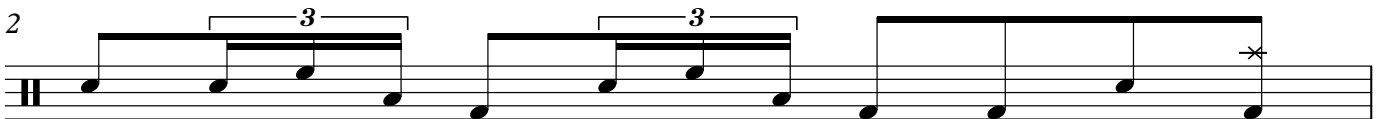

By Alex Ribchester

In this weeks lesson we have got a two bar drum fill that combines 8th notes with 16th note triplets. This lick was often used by such drummers as Led Zeppelin's John Bonham. This fill works great with 4/4 grooves with a half time feel and can be broken down into two individual, single measure drum fills.

Measure 1:

Measure 2:

Play both ideas back to back for for a 2 bar fill.

Apply some groove and practice the transitions between groove and the fill.
