

Paradiddle Beat Ideas

Alex Ribchester

Exercise 1: This is the basic pattern as played at 3:16

Exercise 2: I have written this to be played on the crash, although in the video I played it on the ride. In this exercise we are moving the left hand on to the toms for the '&' and 'a' of beats 2 and 4. (4:29)

Exercise 3: In this one we start to alternate the right hand between the ride and a crash on the '&' of each 8th note. It sounds quite cool if using the bell of the ride, a splash, a china (oriental crash) etc... as seen in the video at (6:40)

Exercise 4: In this one we start to alternate the right hand between the ride and a crash on beats 1,2,3, and 4 of each 8th note. (6:22)
